HELLO! MY NAME IS **JOSÉ AGUILAR**, AND I AM A REACT ENGINEER

I am an innovative and highly creative React Engineer, with extensive experience in React Js, Javascript, HTML5, CSS3, Jss, Redux Saga, React Router, React Redux, Material UI, Bootstrap, Semantic UI, Axios, API Rest, Highcharts, D3, I have some experience with Amazon Web Services, also doing some Backend with Golang or Node Js, I have been working for a while with Zeplin, Figma, InVision to handle mockups, and CMS as WordPress for Digital Product Development. I like to work as part of a team, I am proactive, great working within the guidelines of brand and design. For me the attention to detail is extremely important, my main objective is always to deliver well finished projects.
